

CMK-175 MixKing

The Cart-Away CMK-175 Mix King is a versatile bit of kit that with 1.4m³ capacity enables your business to move to the next level. Serious contractors, materials supply yards looking to become a mini-mix supplier and existing ready-mix suppliers can easily add some flexibility to their existing fleet.

Cart-away mixing trailers are not limited to only producing quality concrete as stabilised sand, renders, mortars, fertilisers and even specialised feed for cattle are all regularly mixed with our systems.

- Hydraulic rotation and tilt for mixing and dumping
- Mixes concrete while travelling
- Large internal mixing blades for a fast efficient mix
- Simple to use rear operator control panel
